Business Models, finance and procurement

Anja de Cunto
20th June 2017 AC Updates
1) Main aim

- Guide cities and their partners in searching information about innovative business models, procurement models and funding and financing opportunities.
- Sharing information and best practice from relevant projects (i.e. the SCC01, CoM, ...)
- Establish a dialogue for the creation of a smart cities market
2) Status and 12-month outlook

- Funding and financing guide
- 5 webinars and three meetings
- Report on LIE
- BM canvas and BM repository (work in progress)
- Enhanced dialogue among SCC01 + cooperation with CoM + relevant projects
- Future > Innovative finance schemes, procurement schemes, etc…
3) Challenges

- Understand the needs of vertical initiatives
- Long term commitment of participants in the AC
- Engaging the financial sector
- Ensure replication of success cases
- New tools vs build on what is already existing
4) Benefits for the investment environment

• Support tools for vertical initiatives
• Better understanding what is already available
• Engagement of the finance sector
