

# The Humble Lamppost: Maximising value from existing city assets

## Principal Ideas & Outcomes from the Discussion

- Break through the Schism by
  - ① Higher level of organisation
  - ② Engage the market better
  - ③ HL is the infrastructure for future services } political support dearly needed

## Challenges to Overcome to Stimulate Cross-Sector Collaboration & Scale Investment

- Combine existing (local) budgets
- Engage other (lighthouse) projects and other domains like: Mobility, Health, Energy transition
- Problem: implementation on local level, but the infrastructure (connectivity platform) needs National + International (EU wide) approach

## Practical Next Steps

1. Map stakeholders + blockages on local level
2. Combine budgets / break silos & start with a pavillion.
3. Create high level programme moving forward
