

SHAR-LLM

Project ID: 691895

Funded under: [H2020-EU.3.3.1.3. - Foster European Smart cities and Communities](#)

Sharing Cities

From 2016-01-01 **to** 2020-12-31, ongoing project

Project details

Total cost: EUR 28 068 093,92	Topic(s): SCC-01-2015 - Smart Cities and Communities solutions integrating energy, transport, ICT sectors through lighthouse (large scale demonstration - first of the kind) projects
EU contribution: EUR 24 753 944,98	Call for proposal: H2020-SCC-2015 See other projects for this call
Coordinated in: United Kingdom	Funding scheme: IA - Innovation action

Objective

Sharing Cities has four key objectives.

- 1) To achieve scale in the European smart cities market by proving that properly designed smart city solutions, based around common needs, can be integrated in complex urban environments. This will be done in a way that exhibits their true potential and allows for the significant scale-up and consequent increase in social, economic and environmental value.
- 2) Adopt a digital first approach which proves the extent to which ICT integration can improve and connect up existing infrastructure, as well as the design and running of new city infrastructure. This will also allow for the creation of a new set of next stage digital services which will help citizens make better and beneficial choices around energy efficiency and mobility, which when scaled up will enhance the city's ability to hit key targets for mobility, housing, energy efficiency and resilience, and economic development.
- 3) Accelerate the market to understand, develop and trial business, investment and governance models, essential for the true aggregation and replication (through collaboration) of smart city solutions in cities of different sizes and maturities. In doing this, we intend to accelerate the pace by which we make transformative improvements, and enhance sustainability in communities.
- 4) Share and collaborate for society: to respond to increasing demand for participation; to enhance mechanisms for citizens' engagement; to improve local governments capacity for policy making and service delivery through collaboration and co-design; resulting in outcomes that are better for citizens, businesses and visitors. These will be delivered by a range of expert partners across 8 work packages.
