European Innovation Partnership on Smart Cities and Communities Building a Market for Smart Cities and Communities Sustainable Urban Mobility Action Cluster

Background

The EIP-SCC Action Cluster Sustainable Urban Mobility brings together cities and regions with companies to showcase innovative mobility solutions and support their replication at scale in key market segments. It aims to become the leading platform for understanding (and documenting) city needs, bringing stakeholders together, building the tools that support an innovation pipeline, and directly supporting individual networks and projects that are *en-route* to realisation.

It focuses on five Initiatives:

1. **Urban Air Mobility (UAM)** – lead by [Airbus](#), it aims to contribute to bringing urban mobility into the third dimension – the airspace (flying vehicles) – by offering a marketplace-driven forum of diverse mobility stakeholders (ground and air) to jointly work towards city-centric demonstration projects at intra-city and inter-city (regional) level;
2. **Intelligent Mobility For Energy Transition (IMET)** – lead by [Nissan](#), it aims to create a mechanism for the development of sustainable energy models through e-mobility solutions as an innovative product for the development of smart cities;
3. **New Mobility Services (NMS)** – lead by the [Province of Noord-Brabant/ Brabantstad](#), it aims to build a common ground for New Mobility Services, supporting service replication and cooperation between cities and private sector;
4. **Electric Vehicles for Smart Cities and Communities (EV4SCC)** – lead by [Urban Foresight](#), it is mobilising a Europe-wide dialogue on the potential for electric vehicles to be integrated with smart city initiatives and aims to create the world's largest marketplace for smart electric mobility solutions;
5. **Alternative Fuels Special Vehicles (AFSV)** – lead by [Aebi-Schmidt](#), it aims to create a guideline that draws on the very latest and most appropriate technologies to recommend to cities to help steer a clear path in order to achieve the zero emission target in the field of special vehicles.

In addition, the European Commission has hired the services of **JiIP/The Extremely Useful Company** who can help practitioners to assess the investment readiness of up to 20 projects, identify investment opportunities and connect the project partners with investors and financiers. Together, these actions form the Action Cluster Sustainable Mobility of the European Innovation Partnership in Smart cities. Other Action Clusters deal with energy, ICT and cross-cutting issues.

Objectives

1. Gather the latest update from the initiatives
2. Learn how to get involved
3. Network with the initiatives and other participants

European Innovation Partnership on Smart Cities and Communities Building a Market for Smart Cities and Communities Sustainable Urban Mobility Action Cluster

14:00 – 14:30	Registration of participants
14:30 – 14:45	Introduction and objectives <ul style="list-style-type: none">▪ <i>Sustainable Urban Mobility Action Cluster, Henriette VAN EIJL (DG MOVE)</i>
14:45-15.00	Tour de table <ul style="list-style-type: none">▪ <i>Participants</i>▪ <i>Moderation by Sustainable Urban Mobility Action Cluster, Henriette VAN EIJL (DG MOVE)</i>
15.00 – 16.00	EIP-SCC SUM initiatives: objectives, workplan, stakeholders involved <ul style="list-style-type: none">▪ <i>Urban Air Mobility (UAM), Vassilis AGOURIDAS (Airbus)</i>▪ <i>Intelligent Mobility For Energy Transition (IMET), Eunice RIBEIRO (Ubiwhere)</i>▪ <i>New Mobility Services (NMS), Edwin MERMANS (Province of Noord-Brabant/Brabantstad)</i>▪ <i>Electric Vehicles for Smart Cities and Communities (EV4SCC), Paul BLAKEMAN (Urban Foresight)</i>
16.00 – 16.15	Questions and Answers <ul style="list-style-type: none">▪ <i>Sustainable Urban Mobility Action Cluster, Henriette VAN EIJL (DG MOVE)</i>
16.15 – 17.00	Explore Coffee break: Learn, stimulate ideas, network and see what's next*

* Explore area: Learn, stimulate ideas, network and see what's next

The explore area will offer an unique opportunity for Smart city actors to meet, network, exchange best practices, present projects, find partners, and stimulate discussions helping the development of innovative ideas, together with the leaders of the SUM initiatives. All this during a coffee-break!

Participants will be able to visit, in a dynamic way, different corners where SUM initiative leaders will be available to discuss and make the necessary contacts to move initiatives forward and to develop their business by exhibiting and demonstrating state of the art solutions in smart city projects.
